

WORLD CHILDREN FESTIVAL

PEACE & GLOBAL FRIENDSHIP

INVITATION

It is our honor and joy to invite you, your organization and network to join this collaborative world action for Peace & Global Friendship.

Beyond the external conditions for safety, Peace is an experience, a state of mind, a quality of the heart, and the making of skillful and generous hands guided by shared purpose: needs, opportunities, and aspirations.

The World Children Festival is a Doing-Together of children and adolescents from the whole planet. They express their experiences, desires, aspirations by implementing Art for Peace protocols.

This year's Festival is focused on the "Children of the World Painting the Peace Flag". See Protocol annexed.

Children will see the result of their painting by:

- 1) the organization's event or exposition,
- 2) video of the painting process (making of) published in youtube.com/user/peaceglobalnet
- 3) as part of the World Flag of Peace that will be presented to UN in September 2025.
